Users-NodeJS-Sql

StartFragment

Rest Api using nodejs for the backend, mysql for the databse engine and sequelize for the ORM, good scaffold with MVC pattern.

[CRUD for users with this attributes:] (<https://libb.co/Ksxz6gg>) checked with express-validator

Users Requests

GETGet User

http://ec2-54-94-33-33.sa-east-1.compute.amazonaws.com:3001/api/users/1

GETGet Users

http://ec2-54-94-33-33.sa-east-1.compute.amazonaws.com:3001/api/users

PARAMS

limit

5

Choose the maximum number of records displayed (limit by default is 10)

offset

0

Choose in which record starts (offset by default is 0)

POSTCreate User

http://ec2-54-94-33-33.sa-east-1.compute.amazonaws.com:3001/api/users

Bodyraw (json)

json

```
{
  "firstName": "David",
  "secondName": "Faustin",
  "lastName": "Suarez",
  "birthday": "1978/11/08",
  "phone": "092513328",
  "email": "david@falsemail.com",
  "password": "admin",
  "gender": "M",
  "role": "admin"
}
```

PUTUpdate User

http://ec2-54-94-33-33.sa-east-1.compute.amazonaws.com:3001/api/users/1

Bodyraw (json)

json

```
{
  "firstName": "Xavier",
  "phone": "099021448"
}
```

DELETEDelete User (Soft Delete)
